ALL-AMERICA GLADIOLUS SELECTIONS

Like the rose growers who select the finest new roses for special national honors each year, a group of 26 leading gladiolus growers, including Redwood Nurseries, in January, 1953, organized

"ALL-AMERICA GLADIOLUS SELECTION"

to select outstanding seedlings submitted for trial. The first winner, scoring an average of 90 plus points in the 26 test plots will be introduced in January of 1956. Watch for listing next season.

# Greetings . . .

With the presentation of our 1955 gladiolus folder, we wish to sincerely thank our many friends and customers for their patronage of the past season. Your letters of satisfaction with our service and clean stock are greatly appreciated. Our greatest ambition is to keep up this reliable service with even better and newer varieties. The summer of 1954 was the coolest in the 83 years weather records have been kept in our territory, therefore, large bulbs are at a premium. We recommend that you order early if large sizes are desired.

Since our last folder was issued, the Oregon Bulb Growers have been granted a special commodity rate by the Express Co. Express rates have been reduced between 20-25% under those of last season on shipments of 100 pounds or over.

REDWOOD QUALITY UNSURPASSED

Sincerely,

JOHN T. MAJESKI, Prop.

## PAISLEY 466 (Pruitt-Gove-Majeski)

A very distinct and attractive commercial and exhibition lavender with a deep mauve feather and creamy white throat on which is a mauve blotch and with some veining throughout the flower. Very distinctive and different from anything else. Opens 6 5"-blooms on a 16-18 bud spike that grows to a height of 50 inches. Strong grower and propagator. Here is a glad that actually draws a crowd around the show table. Displayed at the Grants Pass and Yakima shows, it was surrounded by the fair sex who greatly admired the striking cream and mauve throat that is so distinct and beautiful (picture on back cover).
